

Critical Mass

On Friday 28 November 1997, groups of cyclists around the world rode the streets in support of reducing greenhouse gas emissions. The 750 strong Sydney ride took over all eight lanes of the Sydney Harbour Bridge with blue flags flying to symbolise clean skies.

This month we're doing it again; legally. Join us for a joyous celebration of sustainable transport by cycling or skating across Sydney's coathanger icon. Wear blue and fly a blue flag!

Meet at the fountain, Hyde Park, 5.30 for a 6pm start.

Friday 28 November 2008.
